Also Grey Zinc Paint, strongly recommended for ships' bottoms.—Sold wholesale by JOHN WARNER and SONS, 10, Crescent, Jewin-street, London.

HUBBUCK'S PATENT WHITE ZINC PAINT.—This elegant white (the purple pigment of the ancients, has been used by artists through the world for centuries, and is still known to the members of the fine arts as under the old name of Permanent White.

Three years since the proprietors placed their manufacture on a large scale, and offered it at a price to compete with White Lead.

The successful introduction of this paint and its continued superiority over every other paint hitherto known, brought forward various imitations.

These inferior productions, frequently made from stone ores, containing sulphur, lead, arsenic, and other deleterious material, alike injurious to health, deficient in body, and returning the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors these should not be confounded with the original, even though sold under the pretence that it is all the same.

HUBBUCK'S paint is entirely free from any injurious property whatever, it is beautiful in the manufactory, unlimited in use, and faithful to every particle of paint to which it is united.

As a guard to the painter against the substitution of the inferior paints, each case is covered

"HUBBUCK, LONDON PATENT,"

and if the cask has no bung, bent, or marked, the paint is obvious.

A Circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London Docks.

PURE PATENT WHITE ZINC PAINT, from the Vieille Montagne Zinc Mining Company.—The Company having become Proprietors of all rights and Patents of the late Paters, White Lead Companies in France, and the power to purchase to furnish, on a large scale, the WHITE OXIDE OF ZINC, in a pure state, and of a quality which can only be manufactured with the zinc from the mines in Hesdrum. Patent White Zinc Paint is extensive, in every respect, to white lead paint. It is entirely free from all poisonous substances, and is unaffected by sea water, sulphuretted hydrogen, or any gases. Besides it preserves its original colour, which White Lead Paint does not. White Zinc Paint causes none of those nausea usually experienced by white lead, upon the human frame; instruct painters choice and perspicuous &c. &c., to which dangerous complaints the workmen, who manufacture and use it, are subject, and to which persons who inhabit newly painted apartments are also liable. A spurious article having been introduced in the market, under the name of White Zinc Paint, the public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a first-rate one.—For further particulars and prospectuses, apply to Mr. H. F. SCHMOLL, General Agent for England and Scotland, at the Company's offices, 13, Manchester buildings, Westminster, London; and for supply of material and prices at Messrs.
